UNPARALLELED PRIVACY & REPUTATION MANAGEMENT
FOR WHEREVER AND WHENEVER THE INTERNET WATCHES YOU BACK

Introducing Enhanced Privacy Management

You do a lot online, including surfing, streaming, socializing, shopping, and much more. Most of us don't want to think about it, but the reality is that your private data, identity and reputation can be stolen with a just few simple keystrokes.

A web transparency study done by Princeton says
76% of websites contain Google tracking devices and 24% have Facebook trackers.¹

Take control of your privacy

IDShield protects your private data, identity and reputation by helping you delete it from places where it shouldn't be:

 Data broker sites (Spokeo, MyLife, Radaris)	 Internet browsers
 Social media apps	 Smart TVs
 Voice assistant technology (e.g. Amazon Alexa, Apple Siri, Google Assistant, etc.)	 Password management services

And more...
